

Assessment Helper - Weekly Team Report

CS 4485 | Week of September 14-20, 2026

Team:	
Point of Contact:	

1. Completed Work

Add completed outcomes for this week. Each item should describe a result, not just an activity, and include a specific GitHub issue, pull request, test, or artifact link when available.

Owner	Completed Outcome	Issue / PR / Evidence	Status
			Complete
			Complete
			Complete
			Complete

2. Individual Contributions & Time by Task

Each member should complete their own row(s). Add more rows if needed.

Team Member	Role	Task / Outcome	Hours	Evidence Link
Aurore Ngalamo	Frontend			
Onkar	Frontend			
Prethel	Backend / Data			
Fabian	Backend / Data			
Zain	Integration & Auth / PM / QA / Docs			

3. Planned Work for Next Week

Owner	Planned Task / Outcome	Target Date

4. Risks and Blockers

Risk / Blocker	Possible Impact	Proposed Action	Owner

5. Decisions

Decision	Who Decided	Reason	Alternative Rejected

6. Meeting Minutes

Meeting Date: Meeting Type: Team / Advisor

Attendance:

Key Discussion:

Decisions:

Action Item	Owner	Due Date

7. Checkpoint Evidence

Add direct links to this week's specific GitHub issues, pull requests, test runs, screenshots, designs, schema documents, or other project artifacts.

Evidence	Direct Link	What It Shows

8. AI Use Log

Complete this section if generative AI was used for project work this week.

Member	Tool / Model	Purpose	Artifact Affected	How Output Was Verified

Before submission: Confirm every member's contribution and hours are included, meeting minutes are attached, evidence links are specific, and the final team report is exported as one PDF.
